Mr. Adnan Sheikh
HR Manager
NetSol Technologies
Karachi, Pakistan

Dear Mr. Sheikh:

I am writing to apply for the Entry-Level Software Developer position in the Software Engineering Department at NetSol Technologies. As a recent BS Computer Science graduate from DHA Suffa University, I am excited to start my professional journey with an industry leader like NetSol. I have long admired your company's commitment to innovative enterprise solutions and believe my passion for software development aligns well with your organizational goals.

During my studies, I built a strong foundation in Java, Python, and JavaScript, and gained practical experience with frameworks such as Spring Boot and React Native. For my final year project, I led the development of FinTrack, a fintech application that featured digital payments, expense tracking, and AI-powered financial analytics. This project strengthened my technical skills as well as my ability to manage a team and meet deadlines. Additionally, I completed an internship at TechSoft Solutions, where I contributed to backend API development and enhanced the performance of web applications. I am confident that my technical expertise, problem-solving mindset, and eagerness to grow will make me a valuable addition to your team.

Thank you for considering my application. I would appreciate the chance to discuss how my background and dedication to software development could support your team's objectives. I plan to follow up next week, but please feel free to contact me at your convenience.

Respectfully yours,

Abdev Kumar

SUMMARY

A highly motivated and results-driven Computer Science graduate with robust academic credentials coupled with hands-on software development experience. Strong foundation in full-stack technologies and data-driven problem-solving. Effective team player with leadership experience, eager to contribute innovative ideas and technical expertise to dynamic IT environments.

EDUCATION

2021 – 2025

DHA SUFFA UNIVERSITY, Karachi, Sindh
Bachelor of Science (Computer Science)

TECHNICAL EXPERIENCE

SPRING SOFT TECHNOLOGIES, Karachi, Sindh

Jan – Feb 2024

Software Developer Intern

(part-time)

- Developed RESTful APIs using Spring Boot, optimizing performance by 25% through query tuning.
- Contributed to frontend features with Vue.js, enhancing user workflows.
- Participated in Agile sprints, ensuring timely feature delivery.

FinTrack – AI-Powered Fintech App, Karachi, Sindh

Oct 2024 – June 2025

Team Lead & Backend Developer

(Final Year Project)

- Designed and implemented modules for digital payments, loan management, and smart notifications using Spring Boot and MySQL.
- Integrated AI model for personalized financial health scores and voice commands.

Typing Speed Web App, Karachi, Sindh

Mar – April 2024

Full Stack Developer

(part-time)

- Built a typing speed test platform with user authentication, session tracking, and result history storage using Spring Boot, Thymeleaf, JavaScript, and MySQL.

EXTRA-CURRICULAR EXPERIENCE & ACHIEVEMENTS

- Winner, National HackFest 2024 for building an ML-based loan prediction model
- Mentored juniors in Java, DSA, and web development through weekly coding circles
- Published technical blogs on secure API design, read by 1,500+ peers.

PERSONAL INTERESTS/ACTIVITIES

- Captain, university cricket team; also play badminton regularly.
- Enjoy reading personal development books, and tech blogs.
- Volunteer for community tech workshops, teaching coding basics to school students
